

PATENTED INNOVATIVE TECHNOLOGY
INCREASES CROP QUALITY

CALCLEAR

COMPUTERISED WATER CONDITIONERS

Calclear Water Conditioners have evolved over 20 years in Hydroponics and irrigation and are a patented water treatment for protected cropping keeping minerals in solution to:

- Reduce maintenance costs
- Enhance nutrient uptake
- Increase fruiting
- Increase calcium uptake: robust healthier plants
- Increased crop quality: high-quality vegetables, fruit and herbs
- Increased shelf life

- Reduce blockages in drippers
- Softened water: reduced crystals; nutrients more available to transmit in roots

- Reduce the amount of chemicals
- Nutrient uptake increased
- Increase Biomass particularly with leafy greens and herbs
